

Adobe Creative Cloud for teams

Comparison with Adobe Creative Suite 6

Creative Cloud for teams is a completely new way to think about software. Perpetual software like Creative Suite offers a specific combination of applications with finite feature sets. But a Creative Cloud membership offers an ecosystem of desktop apps, mobile apps, online services and collaboration tools that not only connect your creative workflows but continue to add ongoing value through continuous innovation. This document provides a comprehensive comparison of a Creative Cloud for teams membership vs. perpetual Creative Suite software.

Considerations	Creative Cloud for teams	Creative Suite 6
Product	<ul style="list-style-type: none"> Complete plan includes the entire collection of creative apps and innovative mobile apps that work seamlessly with CC desktop apps Single-App plan includes one app of your choice Both plans include access to new features and updates at no additional charge Many new features have been added to CC apps since CS6 	<ul style="list-style-type: none"> Includes perpetual license for CS6 only CS6 hasn't been updated since April 2012
Services	<ul style="list-style-type: none"> 100GB cloud storage (per user) for file sharing and collaboration Adobe Behance ProSite, enabling users to publish their work to the world's leading creative community Adobe Typekit, providing access to a growing library of fonts for use in desktop apps and websites Adobe Stock, providing access to 10 royalty-free images/month (available as an add-on paid subscription) 	<ul style="list-style-type: none"> Not available
Support	<ul style="list-style-type: none"> Access to advanced 24/7 tech support for IT administrators Free getting started support One-on-one how-to support sessions with Adobe product experts twice annually with Complete plan Access to an ever-growing library of training videos and easy-to-use learning content 	<ul style="list-style-type: none"> Free getting started support
Budgeting	<ul style="list-style-type: none"> Ability to treat costs as ongoing operating expenses Greater control and budget predictability Lower up-front cost 	<ul style="list-style-type: none"> Up-front capital expense for each new seat or upgrade
Purchasing & License Management	<ul style="list-style-type: none"> Purchase via the Adobe Value Incentive Plan (VIP) Easily add, remove and reassign users from one central Admin Console Easily track license compliance and versions Add seats throughout the year that co-terminate on a single anniversary date for simplified management 	<ul style="list-style-type: none"> Purchased from Adobe.com Reporting from the Adobe Licensing Website (LWS) for licenses purchased through Adobe Volume Licensing programs; shows transactional history but no consolidated view of licenses Ability to pull purchase history report for list of receipts
Deployment	<ul style="list-style-type: none"> Centrally deploy and update through Creative Cloud Packager or enable users to install and update on their own 	<ul style="list-style-type: none"> From LWS, download the Adobe Application Manager Enterprise Edition to create packages

Adobe Creative Cloud for teams
